🏳️ Cameroonien 📅 16/10/2001

Professional Summary

Software Engineer and Full-Stack & Mobile Developer from Cameroon with practical experience in designing and developing web and mobile applications, backend systems, APIs, databases, and digital platforms. Experienced in working on real-world software projects across areas including agriculture, food services, business management, transportation, and digital platforms. Strong interest in cloud computing, artificial intelligence, machine learning, software architecture, and scalable digital solutions. A collaborative and adaptable developer with experience working in development teams, mentoring learners, participating in technology initiatives, and contributing to community-focused projects.

Professional Experience

Software Developer, CRESTLANCING 🔗 • Develop and maintain web and mobile software solutions as part of a professional development team. • Contribute to the design and implementation of full-stack applications, APIs, databases, and user interfaces. • Work on business and technology platforms across different domains. • Participate in debugging, testing, feature development, and application improvement. • Collaborate with other developers throughout the software development lifecycle. • Contribute to projects including UniCorp, Bajoma, ChopAsap, and Projina.	02/2026 – Present Cameroon
Software Development Intern, CRESTLANCING • Gained practical experience in professional software development and team-based engineering. • Assisted with frontend and backend development, APIs, databases, and application functionality. • Worked with modern development tools and version-control practices. • Contributed to real-world software projects and transitioned into a Software Developer role.	01/2026 – 02/2026 Yaounde, Cameroon
Software Development Intern, TIC FOUNDATION 🔗 • Supported technology and community-focused initiatives. • Gained practical experience in software development, teamwork, mentorship, and professional collaboration.	09/2022 – 10/2024 Yaounde, Cameroon
Home Tutor Computer Science, Freelance • Provided home tutoring in Computer Science for GCSE and A-Level students. • Explained programming and computer science concepts according to students' academic levels.	01/2025 – 02/2025 Yaounde, Cameroon

Education

Bachelors in Computer Sciences, Institut Africain d'Informatique (IAI-Cameroun) • Studied software engineering with emphasis on software development, database systems, application design, programming, and information systems. • Developed practical experience through academic and real-world software projects.	2022 – 2025 Cameroon
--	-------------------------

GCE / A-Level , <i>Christ The King College Nkolfolou, Nsoa</i> - Studied Mathematics, Physics, Computer Science, and Chemistry. - Obtained the GCE Advanced Level (A-Level) qualification with a strong foundation in scientific and computing disciplines.	2020 – 2021 Cameroon
GCE O level , <i>Franky Comprehensive Secondary School</i> - Studied Mathematics, Physics, Chemistry, and Computer Science. - Obtained the GCE Ordinary Level (O-Level) qualification.	2016 – 2016 Yaoundé, Cameroon

Technical Skills

Programming Languages

- JavaScript
- Python
- PHP
- SQL
- HTML5
- CSS3

Backend Development

- Node.js
- Express.js
- NestJS
- Django
- Laravel
- REST API Development

Artificial Intelligence & Machine Learning

- Python
- Anaconda / Conda
- TensorFlow
- Machine Learning Fundamentals
- Computer Vision
- Facial Recognition

Other Technical Skills

- API Integration
- Authentication Systems
- Real-time Applications
- Payment Integration
- QR Code Systems
- Database Design
- Software Architecture
- Application Debugging & Testing

Frontend & Mobile Development

- React.js
- Next.js
- React Native
- Vite
- Tailwind CSS
- Bootstrap
- Expo

Databases & Data

- MySQL
- PostgreSQL
- MongoDB
- Firebase
- Supabase
- Prisma
- Sequelize

Cloud & DevOps

- Cloud Computing
- AWS Fundamentals
- Firebase
- Supabase
- Docker
- Git & GitHub
- Linux / Ubuntu

Languages

English

Professional proficiency

French

Professional proficiency

Certifications & Recognition

- Aspire Leaders Program Cohort

Major Projects

Projina

Contributed to the development of a digital platform, working across software development, application functionality, and technical implementation.

ChopAsap

Contributed to the development of a digital food-service platform, including application functionality, backend integration, and user-facing features.

Bajoma

Contributed to the development of an agricultural marketplace connecting users with agricultural products and services.

BusEase

Contributed to the development of a transportation and bus-ticketing solution focused on passenger services and digital booking.

Additional Projects

Experienced in contributing to other web, mobile, backend, AI, healthcare, business, and digital-platform projects.

Personal Interests

- | | | |
|-------------------------------|-------------------------|--|
| • Software Engineering | • Cloud Computing | • Artificial Intelligence & Machine Learning |
| • Technology Innovation | • Football | • Gaming |
| • Reading | • Public Speaking | • Teaching & Mentoring |
| • Technology Entrepreneurship | • Community Development | |

Professional / Soft Skills
